

Urine diverting porcelain toilets

Hygien - Comfort - Economy - Water Conservation - Recycling

The WM-Throne

Data:

The WM-Throne is delivered with:

- Toilet of sanitary porcelain.
Measures: Length 570 mm, width 370 mm, height 450 mm.
- Base made of quality birch plywood with transparent or stained surface treatment. The base must be ventilated by a fan and the ventilation outlet should be above the roof.

Base measures: Length 750 mm, width 600 mm, height 250 mm.
Ventilation connection 100 mm. Urine pipe 23mm to be connected to a 50 mm pipe. Water connection R 1/2 “.

The WM-Throne is a cheap and simple application of our ES-model. It is placed directly on the floor and doesn't require any space under the floor. To empty the bin for faeces just open the front of the base and the bin can be pulled out.
